

ASReml 4 Windows Installation Guide

Note: You must remove any existing licenses before installing a new version. Run a global search on your system for 'asreml.lic' and delete this. Also check the folder C:\ProgramData\VSNI for old licenses.

Note: Your license will be locked to the device on which you install the software. You will require administration rights to complete the installation in the default location; the alternative is to install to your user workspace.

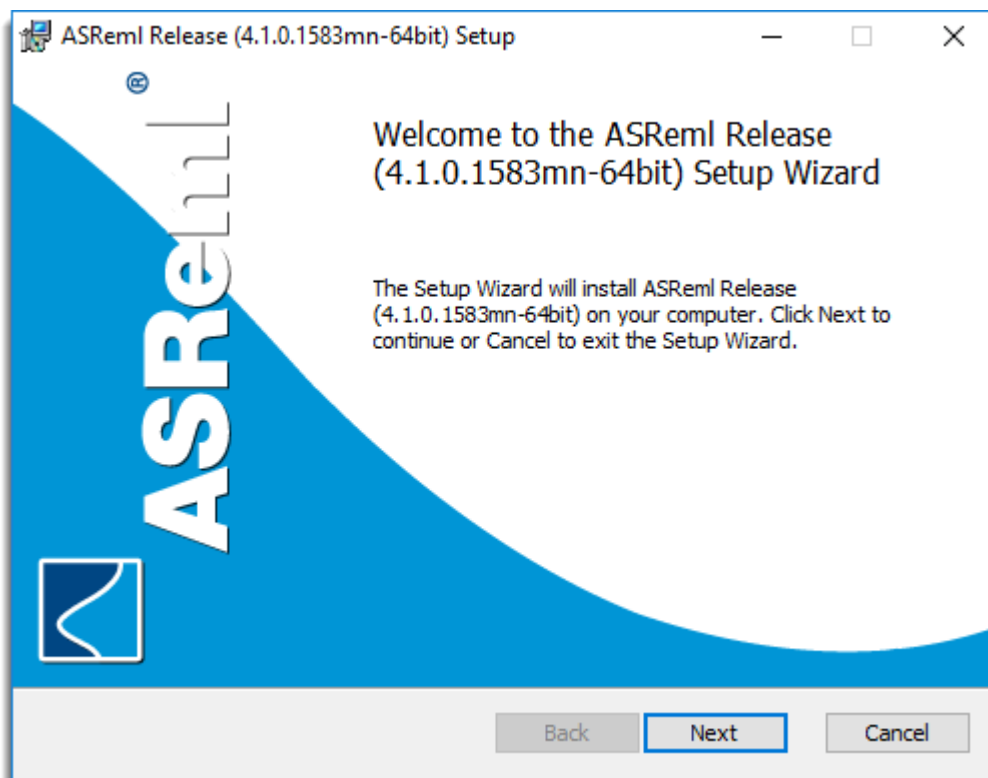

1. You will receive an email containing your License Activation Code and a link to download the software. Download the file.

Order: 10980

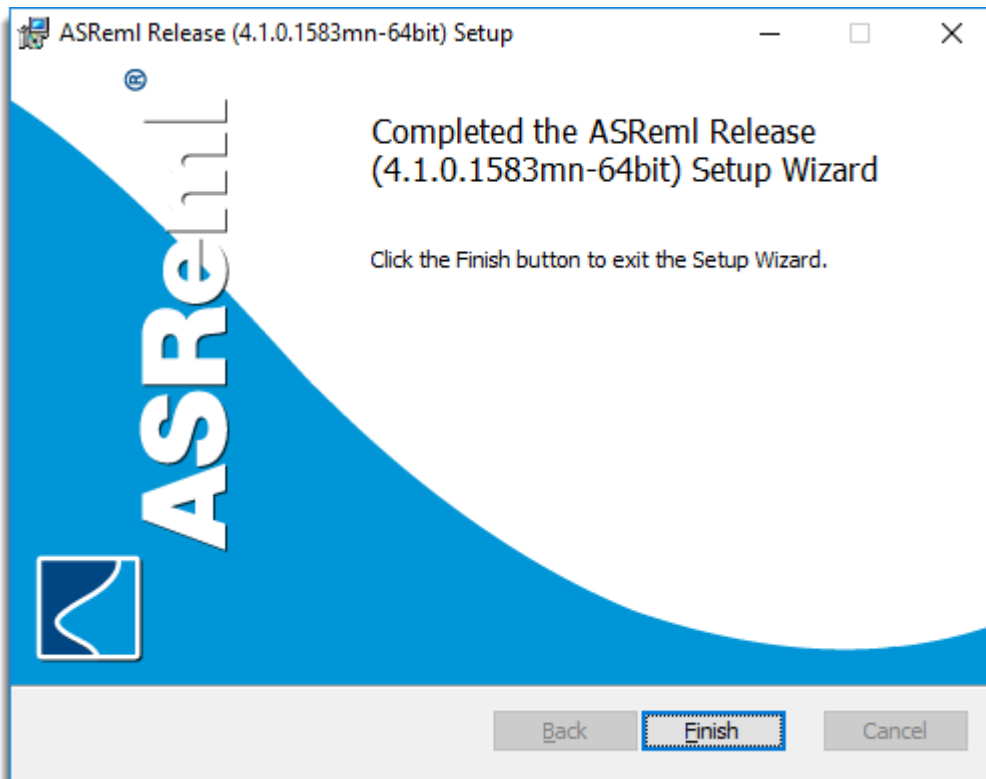

Product	Quantity	Price
asreml 4 Multiple Commercial for Windows Order Based Licence Expiry: yes Duration: Annual	1	£0.00
Download: ASReml 4		

If you have not received an email (perhaps because someone else has ordered the software for you) go to the ASReml Knowledge Base and download ASReml 4 Windows <https://asreml.kb.vsnl.co.uk/knowledge-base/asreml-download>.

2. Navigate to the downloaded file and open it.
3. Click **Next** then follow the on-screen Wizard to install the software.

4. When installation is complete click **Finish** to close the Wizard.

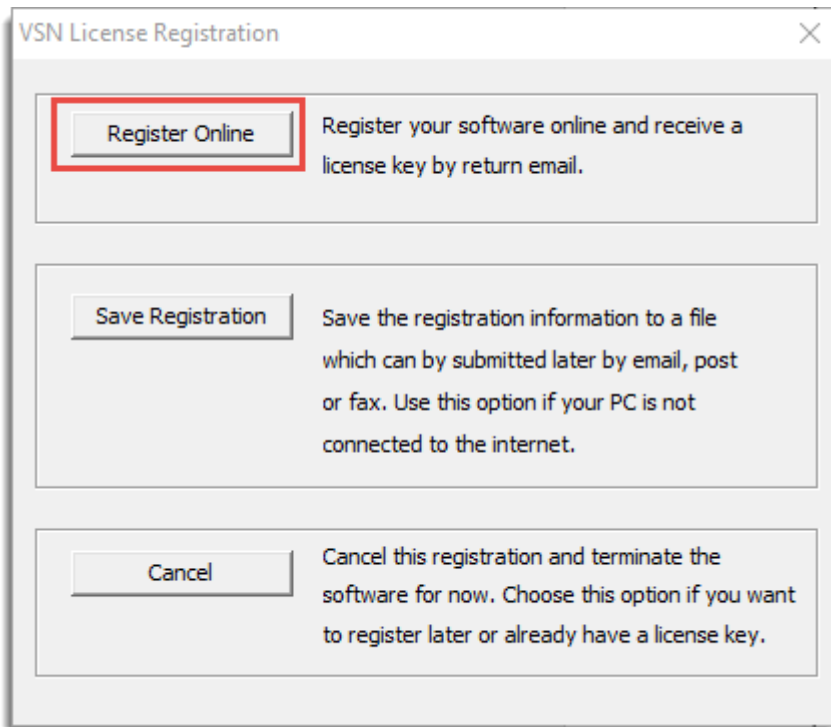

5. The ASReml shortcut will appear on your desktop. Double-click this shortcut to open the application.

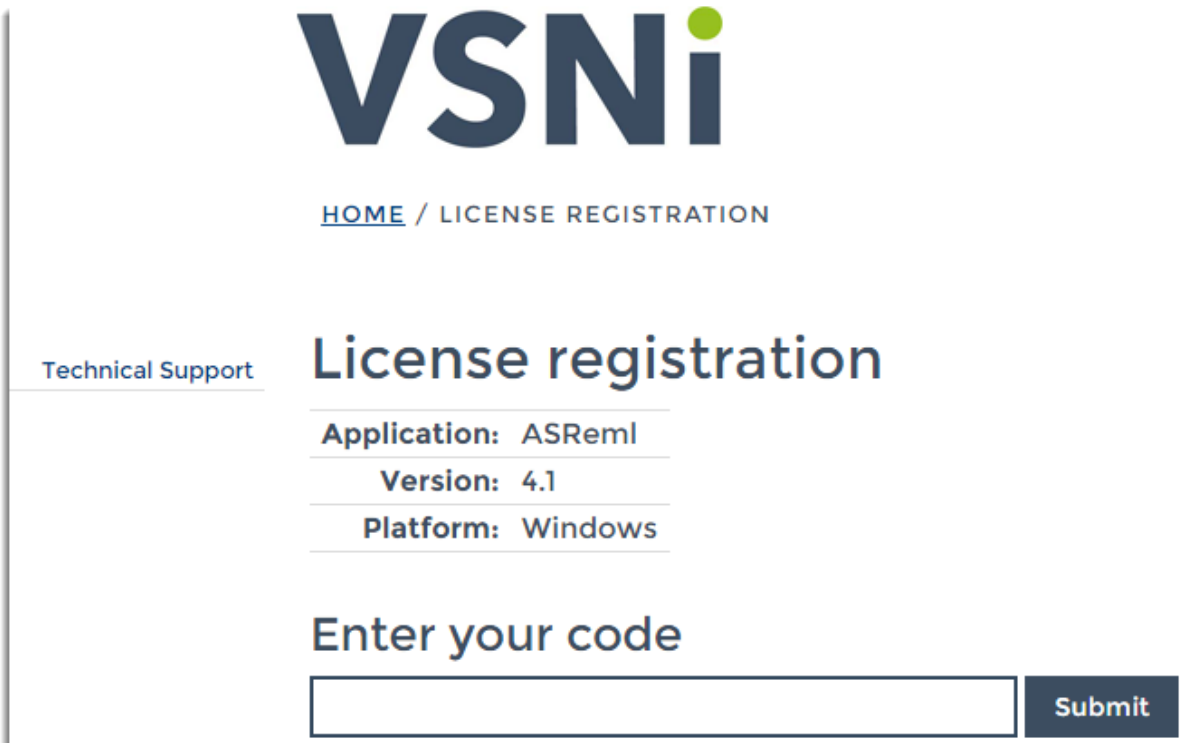

6. Click **Register**.

7. Click **Register Online**.

8. Enter the Activation Code that was emailed to you then click **Submit**.

9. You will see the following message: check your email inbox to receive your software license.

License Registration

Thanks, your registration is complete. You will receive your license with installation instructions via email.

Please give us [feedback](#) on what you thought of our registration process.

The license email will look similar to the following:

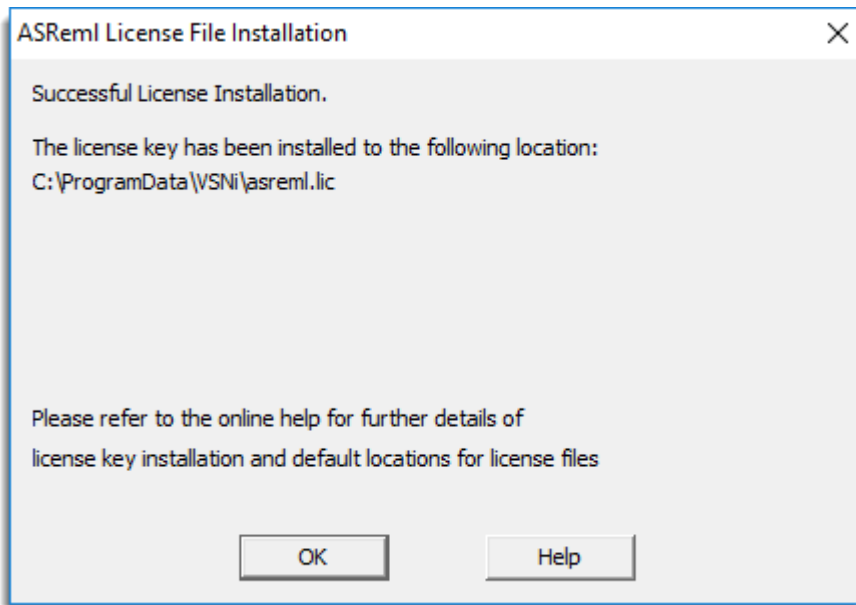

The email contains several sets of instructions for installing the software. We recommend the following method:

10. Right-click the `asrem1.lic` file attached to the email and Save As `asrem1.lic` to your device.

11. In ASReml click **Install**.

12. Click **Install from file**, locate the `asreml.lic` file then click **Open**.

13. Click **OK** twice to close the overlay and start the program.

Removing old Licenses

If you have an existing license on your device you must remove this before installing a new version.

1. Run a global search on your system for '`asreml.lic`' and delete this.
2. Also check the hidden folder `C:\ProgramData\VSNI` for old licenses.

If you still cannot install the software please contact VSNI at support@vsni.co.uk.
